DULL DAY ON 'CHANGE

Fluctuations Mostly Within Narrow Limits of 1 Per Cent.

Bar Silver Closed at 70c an Ounce and Money Easy-Indianapolis Grain Buyers Active.

At New York, yesterday, money on call was easy at 1611/2 per cent., the last loan being made at 11/2, and closing at 11/2.

Prime mercantile paper, 4%@61/2. Sterling exchange was steady, with actual business in bankers' bills at \$4.84@4.84% for demand and at \$4.82@4.82% for sixty days; posted rates, \$4.821/2@4.85; commercial bills,

Silver certificates, 701/4@701/2c. Bar silver closed at 70c per ounce; at London, 32 7-16d. Total sales of stocks yesterday amounted to 184,800 shares.

York Stock Exchange, yesterday, were inconsequential, save in a very few instances, barely a dozen stocks showing a change of over 1 per cent., compared with the closing sales of yesterday. New England was the leader, both in point of activity and as to the width of fluctuations. The shares of New England did not, however, rally materially, and closed heavy at a decline on the day of 3 per cent. A decrease of \$64,826 in the earnings of the St. Paul road for the first week in October was made the point of a sharp bear drive in the shares, which sent them down 11/8 per cent., the close being at a recovery of 1/4 per cent. It is but natural that the close of the world's fair should cause a serious falling off in the business of the road, and it was also exadvantage of the fact to depress the shares temporarily. Sugar was strong in the early dealings, but subsequently gave way under sugar market. The lower range of prices brought in good buyers, said to be insiders, and under their purchases a recovery was made, the closing sale being 11/2 per cent. above the lowest of the day. Chicago Gas was a trifle unsteady during the morning, on the reported granting of a franchise to competing companies, but it received very strong support from the inner circle, and recovered and advanced 21/8 per cent. on the day. National Cordage preferred rose 21/2 per cent. on a purchase of 100 shares, selling at 541/2, against 52 on Nov. 2. The general market was barely steady in the morning, but became firm during the afternoon and closed strong, at a recovery of %@1/2 per cent. from the lowest point

The railway and miscellaneous bond market was generally strong, St. Paul firsts, Southwestern division and Seattle, Lake Shore and Eastern Trust receipts advancing 3; Chicago, Burlington & Quincy sinking fund fives and East Tennessee consol fives, 2 per cent. Government bonds were easier. State bonds were dull.

The following, compiled by Bradstreet's, shows the total bank clearings for the week at different cities named, with increase or decrease over the same week last year:

LOCAL GRAIN AND PRODUCE.

Trade Improving Somewhat with Prices Fluctuating but Little.

The general tenor of the expressions of wholesale merchants is that the recent elections have given more life to trade and to some lines quite satisfactory. The greatest surprise is on Commission row. For the last four weeks the daily complaint has been that the bottom was out of business. One of the largest dealers said, last evening, that more goods had been sold since Thursday morning on the row than in any week since early October. He added: "It really looks like business again sieng the sidewalk and at the city freight depots." In prices there were no important changes. Staple groceries are firm. In the dry goods line steady prices prevail. Pro-visions, of some descriptions, are downward in tendency, while others are upward so that the late changes in prices were largely in the way of equalization. The local grain market was in a little

better shape yesterday. The attendance on 'Change was not what it should be, but the bidding showed greater freedom. Orders were more plenty. Track bids ruled

THE PEOPLE TO RULE

Dun & Co.'s Weekly Review Takes a Hopeful View of Things.

The Cut in Steel Rails Will Boom the Iron Business-Other Lines Showing Improvement.

NEW YORK, Nov. 10 .- R. G. Dun & Co.'s weekly review of trade says: The turn of the tide has come. Since the elections there has been a distinct improvement in business, and particularly in manufacturing. There is some increase in actual transactions, and much more in the tone of business. Men of all parties feel that there is ground for greater confidence, the silver question being put definitely out of the way, and the chance of disturbing action in other respects being lessened, while the right of the people to rule their rulers has been vindicated. While it is yet too early to look for great changes, there is already a distinct improvement in the demand for manufactured products since the action on the silver bill, some increase in the output of pig iron and in sales of wool, in the building trades in several cities, and the failures of the week latest reported show lower liabilities. In brief, the recovery which began when the silver repeal bill

passed continues with increased strength.

The output of pig iron, though not half as large as that of a year ago, is larger than it was at the beginning of October. The monthly statement shows 80,070 tons weekly, against 73,895 tons Oct. 1, and 171,-082 Nov. 1, 1892. There is a slight decrease in the stocks of unsold iron on hand. The sudden fall in the price of steel rails, which has been maintained at \$29 for a long time, but is now \$22 at the mills, has brought the quick enlargement of demand which might have been anticipated, and, in turn, the demand for ore, coke and pig iron improves. Copper improves a little, with a stronger demand, but lead and tin are slightly weaker after the speculative advance last week. In boots and shoes the decline in shipments, compared with last year, is only 17 per cent. for the week, and more of the shops are active, the long-economy in purchases having exhausted supplies of dealers.

The first week of November has passed and thousands of business men breathe more freely because the apprehended failures in dry goods have been much less numerous and less important than was feared. No doubt it is true that many concerns have been carried over by extension, but even a moderate revival of trade will enable most of them to weather the storm. A gradual improvement is seen in the market for cotton goods, with slightly better prices in print cloths and some other grades. The sales of wool have been 3,864,-200 pounds for the week at the three principal markets, against 8,215,000 last year. While the production of men's woolens from June 1 to Nov. 1 was only 10,173,716 yards, against 17,085,191 for the same period last year, there is good reason to expect a larger demand hereafter. The volume of domestic trade, though smaller than a year ago, shows considerable less decrease than appeared in September or October, the exchanges at clearing houses outside New York being only 17.4 per cent. smaller than for the corresponding week last year. The failures for the week past have been 316 in the United States, against 210 for the same week last year, and in Canada 37, against 26 last year. There were four failures with liabalities between \$100,000 and \$200,000 each, and sixty-two with liabilities between \$5,000 and \$10,000 each. The liabilities of failures for last week reported show a very encouraging decrease, amounting to only \$3,467,000, against \$7,413,000 for the preceding week, and it is noticed that while the number of failures does not materially decline as yet, there are fewer of importance.

DOINGS OF A GAY YOUTH.

An Alleged Son of Andrew Carnegie Takes in the "Tenderloin" District.

NEW YORK, Nov. 10 .- Thomas M. Carnegie, who says he is a son of Andrew Carnegie, the Pittsburg iron king, was a prisoner in Jefferson Market Police Court this morning, charged with intoxication, and with him was arraigned David T. Jones, a cab driver, and Henry Small, a colored man. Carnegie was anxious to press a charge of larceny against the two others, but he had not sufficient proof. All three were discharged by Justice Koch.

It seemed that Carnegie hired Jones's cab at the Imperial Hotel at midnight and started out to visit as many saloons as possible in the "tenderloin" district. He had decline to %c net advance. May, 367, 6737c, visited a number of these when, Carnegie closed at 367, c; November, 34% 34% c, closed avers, the driver stopped the cab while a strange man entered and took away his gold watch and chain. When he left the cab to chase the thief, Carnegie says the cab driver held him fast. Then the driver drove Carnegie to a few more bar rooms, and at the Imperial Hotel, at 4 o'clock this morning, Jones had Carnegie arrested for refusing to pay his fare. The cab driver says that Carnegie was so drunk that he suddenly rushed from the cab on West Thirty-seventh street. Thinking he was trying to avoid paying his fare, Jones held his passenger. On the advice of a policeman the colored man, Small, agreed to ride on the driver's seat to see that Carnegle did not try to run away again. Policeman McCormack, at the Imperial Hotel, decided to arrest all three men. Carnegie is a blonde, with a refined face, and his been leading a rather gay life in New York for several weeks.

Dry Goods.

NEW YORK, Nov. 10. - The superb weather and the recovery from the electionday digressions are given as the principal explanations of increased activity throughout the dry goods trade, with prices not changed to any extent, the market for raw material working towards lower prices, and checking what a few days ago seemed to be an advancing tendency. All kinds of cotton goods hold fairly steady, despite the marked decline in cotton, and this is partly explained by the unexpected hesitation shown by American spinners as to the production of goods. Prints and printed fabrics rule firm on small stocks rather than a good demand. Printing cloths on the basis of 215-16c for sixty-four squares show an upward tendency on account of comparative scarcity. Ginghams and woven fabrics suitable for the spring sell well at former prices. Dress goods receive more attention, but efforts to improve prices are immediately resisted. Hosiery and underwear must be suitable for spring and sum-mer use to sell readily. The jobbing trade is supported by a fair run of mail orders, while resident buyers cannot be induced to go beyond actual wants.
